ANALYSIS OF POVERTY REDUCTION

2003. Hardcover. Book Condition: New. 270 Despite modest reductions in poverty in recent decades, progress has been than hoped for, especially low-income countries. Low educational attainment, illness, malnutrition, and high fertility are major contributors to income poverty. Different sets of factors and actors affect whether poor people achieve literacy and good health. Government policies and actions are important, but private providers of education and health services, the interactions between the public sector and the market, social norms and practices, and...
