Brand New Book ***** Print on Demand *****.Excerpt from Experimental Studies in Electricity and Magnetism The published papers of Professor Nipher bearing upon the nature of the electric discharge contain much evidence upon views which have long been under consideration. This evidence was necessarily more or less fragmentary in character, as it appeared in successive papers in the Transactions of a learned society. While calling upon him recently in his laboratory, I advised him to present his work to the public in book form. I consider it of importance that it should receive attention from scientific men, and it will certainly be of interest to the general reader.
